MAKE SITES SAFE REVIEW

NPL Site Name: RICHARDSON FLATS

We are continuing to review the above site and as of the date below the status is:

_____ the same as last report or _____ has changed.

Check one of the following:

- ☒ A site visit needs to be conducted before assessment can be done. We have scheduled that visit for JULY 1990 (month/day).
- ☐ Assessment continues. The necessary data is available or is being collected to complete removal assessment by August 30, 1990.
- ☐ It is unlikely that an immediate threat exists.
- ☐ We believe that a removal action is warranted and are proceeding with efforts to initiate it.
- ☐ There is an ongoing removal action to address any immediate threat.
